

2017 Results Summary for

New Caledonia

This report provides an overview of the results achieved in New Caledonia in 2017 through SPC scientific and technical assistance. It includes results specific to New Caledonia and multi-country results, where initiatives involve New Caledonia and other Pacific Island Countries and Territories (PICTs). Results are reported against SPC's nine development objectives as outlined in the *Pacific Community Strategic Plan 2016-2020*.

This report should be read together with the 2017 Regional Results Summary.

Caledonia

Caledonia multi-country results

1 INSTANCE OF SUSTAINED IMPACT

Evidence of the difference SPC has made towards achieving PICTs' development objectives

O CHANGES IN PRACTICE

Evidence of the effects of the application of acquired knowledge, skills, capacities, and changed attitudes on PICTs' individual or institutional performance

1 CHANGE IN ATTITUDE

Evidence of effectiveness of SPC's outputs and actions in changing PICTs' beliefs, opinions, motivations, intentions

2 CHANGES IN KNOWLEDGE Evidence

of effectiveness of SPC's outputs and actions in increasing PICTs' knowledge, skills, capacities, awareness

3 OUTPUTS

Evidence of relevance of SPC scientific and technical assistance provided to PICTs

Pacific Community Results Hierarchy

Results are described as dynamic change processes in PICTS along a non-linear hierarchy. The hierarchy shows how SPC responds to PICT development needs and priorities with appropriate capabilities to deliver outputs to PICTs (i.e. goods and services) to achieve changes in knowledge, attitude and practice, and where sustained over time, impact at the individual, institutional and population level. Ultimately the change pathway contribute to the three development goals of the *Pacific Community Strategic Plan 2016-2020*.

Sustainable Development Goals

The report also shows specific areas of synergy between the 17 Sustainable Development Goals and SPC's nine development objectives.
