

2017 Results Summary for Tokelau

This report provides an overview of the results achieved in Tokelau in 2017 through SPC scientific and technical assistance. It includes results specific to Tokelau and multi-country results, where initiatives involve Tokelau and other Pacific Island Countries and Territories (PICTs). Results are reported against SPC's nine development objectives as outlined in the *Pacific Community Strategic Plan 2016-2020*.

This report should be read together with the 2017 Regional Results Summary.

19 results
in
Tokelau

2
country-specific
17
multi-country results

0 INSTANCE OF SUSTAINED IMPACT

Evidence of the difference SPC has made towards achieving PICTs' development objectives

7 CHANGES IN PRACTICE

Evidence of the effects of the application of acquired knowledge, skills, capacities, and changed attitudes on PICTs' individual or institutional performance

1 CHANGE IN ATTITUDE

Evidence of effectiveness of SPC's outputs and actions in changing PICTs' beliefs, opinions, motivations, intentions

3 CHANGES IN KNOWLEDGE

Evidence of effectiveness of SPC's outputs and actions in increasing PICTs' knowledge, skills, capacities, awareness

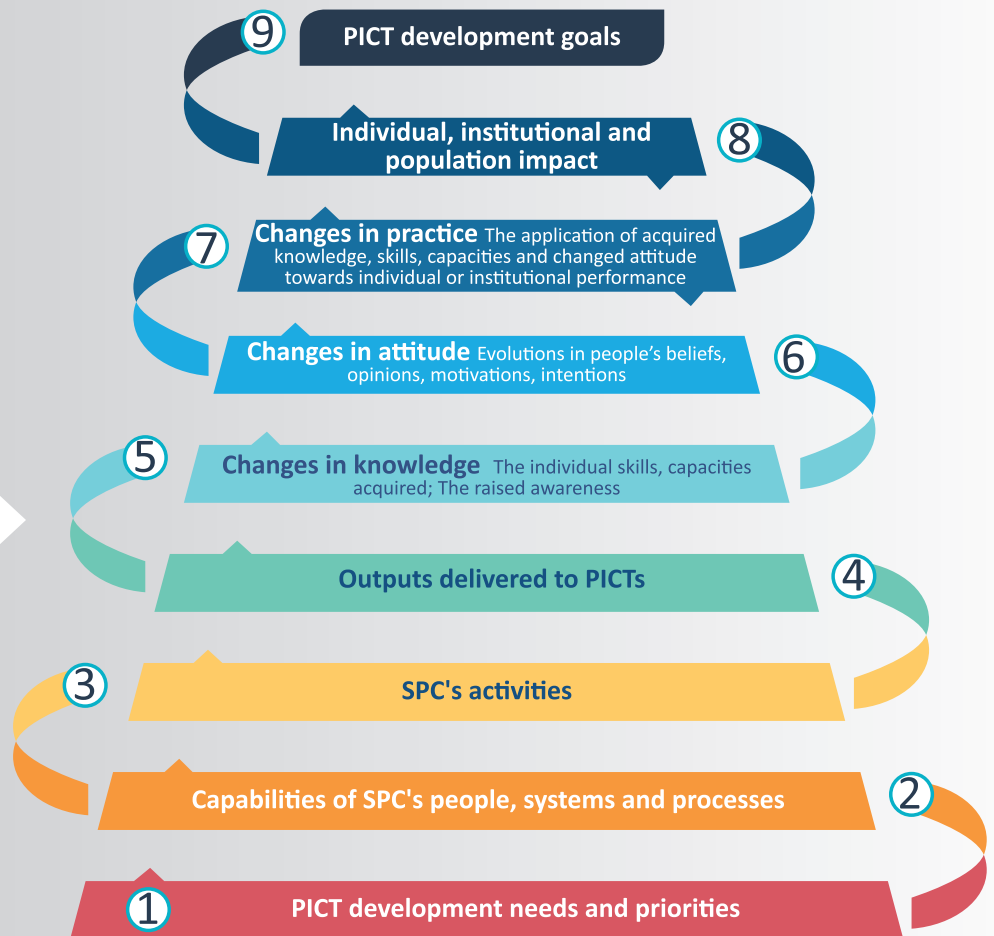

8 OUTPUTS

Evidence of relevance of SPC scientific and technical assistance provided to PICTs

Pacific Community Results Hierarchy

Results are described as dynamic change processes in PICTS along a non-linear hierarchy. The hierarchy shows how SPC responds to PICT development needs and priorities with appropriate capabilities to deliver outputs to PICTs (i.e. goods and services) to achieve changes in knowledge, attitude and practice, and where sustained over time, impact at the individual, institutional and population level. Ultimately the change pathway contribute to the three development goals of the *Pacific Community Strategic Plan 2016-2020*.

Sustainable Development Goals

The report also shows specific areas of synergy between the 17 Sustainable Development Goals and SPC's nine development objectives.

2017 Results Summary for Tokelau

Result description	Result level	Result type	PICTS
 Strengthen sustainable management of natural resources (fisheries, forestry, land use, agriculture, minerals, water)			
Fisheries			
Tails app used in 4 new PICTs, bringing the total to 9 PICTs by end of 2017. Fisheries staff trained in Cook Islands, Fiji, Niue, Tonga and Vanuatu. 8525 trips entered using Tails in 2017 (only 803 entered from paper)	CHANGE IN PRACTICE	Knowledge integration informing practice	Cook Islands, Fiji, Nauru, Niue, Samoa, Tokelau, Tonga, Tuvalu, Vanuatu
			
Information on seasonality and value of target tuna and important bycatch species in the longline fishery within PICT EEZs provided to 7 PICTs	OUTPUT	Knowledge building, e.g. assessment and analysis	American Samoa, Kiribati, Nauru, Niue, Samoa, Tokelau, Tuvalu
			
National level analysis on purse-seine fishing during FAD closure periods provided to 9 PICTs	OUTPUT	Knowledge building, e.g. assessment and analysis	Cook Islands, Federated States of Micronesia, Kiribati, Marshall Islands, Nauru, Papua New Guinea, Solomon Islands, Tokelau, Tuvalu
			
Summary of tuna stock status and national implications provided to 14 PICTs	OUTPUT	Knowledge building, e.g. assessment and analysis	Cook Islands, Fiji, French Polynesia, Kiribati, Marshall Islands, Nauru, New Caledonia, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tonga, Vanuatu
			
 Strengthen access to and use of development statistics in policy development and monitoring progress			
Finalised CPI rebase project, with first rebased index published	CHANGE IN PRACTICE	Improved statistical systems, processes, products	Tokelau
			
Facilitated South-South exchange between civil registration offices of Tokelau and Niue, which increased understanding of registration processes and practices	CHANGE IN KNOWLEDGE	Increased knowledge	Niue, Tokelau
			

Result description	Result level	Result type	PICTS
Training for selected PICTs on the development of national CRVS plans. All countries developed a draft CRVS plan	CHANGE IN KNOWLEDGE	Increased knowledge	American Samoa, Cook Islands, Nauru, Niue, Tokelau, Tuvalu
 Improve multi-sectoral responses to non communicable diseases and food security			
Leaders engaged in national NCD summit and committed to take NCD action	CHANGE IN ATTITUDE	Commitment to action	Tokelau
National NCD plans developed and launched successfully	CHANGE IN PRACTICE	Implementation of policies, legislation and initiatives	Fiji, Tokelau, Tonga
National NCD plan in place and implementation demonstrated in collaboration with stakeholders	CHANGE IN PRACTICE	Implementation of policies, legislation and initiatives	Cook Islands, Fiji, Tokelau
NCD risk factor interventions implemented, with resources and/or trained staff	CHANGE IN PRACTICE	Implementation of policies, legislation and initiatives	Fiji, Cook Islands, Guam, Vanuatu, Tokelau
National NCD initiatives led by government ministers and parliamentarians, Ministry of Health/ Minister of Health and/or CEO, and senior public servants	CHANGE IN PRACTICE	Implementation of policies, legislation and initiatives	Cook Islands, Fiji, French Polynesia, Marshall Islands, Tokelau
 Strengthen regional public health surveillance and response			
166 health staff trained in public health surveillance and/or outbreak investigation	OUTPUT	Capacity development, including training and mentoring	Tokelau, Tonga, Tuvalu, Vanuatu

Result description	Result level	Result type	PICTs
Surveillance systems assessment supported	OUTPUT 	Knowledge building, e.g. assessments	Federated States of Micronesia, Guam, Samoa, Tokelau, Tonga, Tuvalu, Vanuatu
55 health staff participated in outbreak simulation exercises	OUTPUT 	Capacity development, including training and mentoring	American Samoa, Cook Islands, Federated States of Micronesia, Fiji, French Polynesia, Guam, Kiribati, Marshall Islands, Niue, Northern Mariana Islands, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu
 Improve education quality			
130 people trained in PILNA processes and procedures in 15 PICTs for PILNA trial. Engaging national PILNA counterparts in the processes and procedures strengthened knowledge and practice in preparation for actual PILNA administration in 2018	CHANGE IN PRACTICE 	Skills transfer	Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu
10 PICTs participated in training on using assessment data and learning outcomes to conduct educational research, as part of phase 1 of research on utilisation of PILNA results to inform policy change	CHANGE IN KNOWLEDGE 	Increased knowledge	Cook Islands, Kiribati, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tuvalu, Vanuatu
Survey conducted on the extent to which PILNA data has been used at system level to inform policy change. Over 70 education ministry officials were consulted and interviewed	OUTPUT 	Knowledge building, e.g. meetings, assessment, analysis, information, education, communication	Cook Islands, Kiribati, Niue, Papua New Guinea, Solomon Islands, Tokelau, Tuvalu, Vanuatu
To raise awareness of effective data utilisation, a regional workshop was convened and attended by representatives of 15 PICTs and development partners (ADB, DFAT, PIFS, UNESCO, UNICEF, UIS, USP, World Bank). High levels of satisfaction were recorded during the post-summit evaluation.	OUTPUT 	Knowledge building, e.g. meetings, assessment, analysis, information, education, communication	Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu
